

THURSDAY - 11TH JULY 2024

Flash Session 1	Flash Session 1	Flash Session 1	Flash Session 1	Flash Session 1	Flash Session 1	Flash Session 1	Flash Session 1
PL 001: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 002: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 003: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society	PL 004: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 005: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 006: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society	PL 007: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 008: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 009: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society	PL 010: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 011: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 012: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society	PL 013: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 014: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 015: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society	PL 016: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 017: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 018: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society	PL 019: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 020: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 021: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society	PL 022: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 023: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 024: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society
	Flash Session 2 PL 025: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 026: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 027: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society				Flash Session 2 PL 028: Short Report Presentation: Development of a new catalyst Presenter: John Smith - Royal Society PL 029: A new method for the synthesis of functionalized polymers using a novel catalyst Presenter: Jane Doe - Royal Society PL 030: Development of a new catalyst for the synthesis of functionalized polymers Presenter: John Smith - Royal Society
